

Technical Advisory

Date: March 1, 2018

Region: Global Distribution

Product: PB-101 PG2/PB-102 PG2

Supervised Handheld PowerG Wireless

Panic Buttons

Brand: Visonic

Background

It has come to our attention that the PB-101 PG2 and PB-102 PG2 wireless panic buttons may currently be in use in locations which they are not approved for. These units are to be used in non-hazardous locations only. Units are designed and listed for use in security / alarm systems and applications. They are not designed or listed for use in health care signaling or other life safety applications.

Status

If you have PB-101 PG2 or PB-102 PG2 panic buttons in use in health care signalling or other life safety applications, please be advised that these panic buttons should not be installed in such sites and that it is recommended to replace them with units that are listed appropriately for that application.

Elpas offers several solutions for medical and life safety monitoring and should be considering if replacement of PB-101 PG2 or PB-102 PG2 is needed. More information about Elpas solutions can be found at

<http://www.elpas.com>.

Affected Part Numbers

(Including PowerMaster kits which contain PB-101/PB-102 PG2)

Part Number	Description
